Main Article – Understanding the Leverage Triangle

We all have 3 things to work with when we start a business: *Time, Expertise, and Money*. Most new business owners have very little of these in the beginning—but as they grow their business they begin to have more of each and thus more leverage. Successful entrepreneurs learn to leverage other people's time, expertise and money too. ***What determines the amount of success you will have and also how fast you will achieve it?***

Your mindset will determine your success at building wealth more than how much money you have, more than your level of expertise, and even more than the amount of time you spend on building your wealth. If you aren't operating your business with proven Millionaire Mindsets, you won't be able to leverage yours or anyone else's money, expertise, and time exponentially. Here are just a few of the **Mindsets** I encourage you to explore as you build your wealth:

- Your Relationship With Money Itself
- Your Ability To See The Bigger Picture & *Then MORE IMPORTANTLY Step Into It*
- Understanding LEVERAGE & ROI and Using The Principles In EVERY Area of Your Life
- Building A Community To Serve That You Are *Passionate About*
- Understanding That YOU Are The Most Important Resource You Have YET *You NEED a Team To Accomplish Your Goals*
- Using Technology Allows You to Build a Brand and Expert Status At Lightning Speed
- Plugging Into Proven and Multiple Business Models Is Smart
- You Must Surround Yourself With People Who Are Doers
- You Must Be Willing To Take Risks and Have A Sense of Adventure—Have Fun!
- Systems and Automation Are The Keys To Making Millions
- You Will Attract Unbelievable Opportunities When You Believe They Are Possible
