Message from Sheri McConnell

Dear MMF Members,

Welcome to month 2 in our live My Millionaire Friends Coaching Program. Based on the feedback we have received so far, your mindsets are definitely changing! Also--make sure you take advantage of your one-on-one time with me each week. I have people paying \$8000 a year for this type of coaching—so please make you take advantage of this opportunity. 😊

To your *millionaire* success,
Sheri McConnell-President

Main Article – Get in the Millionaire Habit of Doing a ROI on EVERYTHING

Do a ROI on everything. One of the best strategies I share with all my clients is to do a ROI on every decision they make in their lives. Doing a return on investment (ROI) of their time, money, and the sharing of their expertise is crucial. A few questions to consider as you learn to use the ROI mindset are:

- Do I have time to do this?
- Do I have the money to do this?
- Will sharing my expertise in this way benefit my bottom line or bring me new leads?
- Can I leverage this task into other income streams?
- Should I delegate this task?
- Will not delegating this task prevent me from working on more profitable projects?

You should also use the ROI mindset in your personal life because running a virtual company from your home office using a global virtual staff means that your business and personal life are meshed together now. So it makes sense to be successful in business you must do a ROI at home too. A few questions to consider in this area are:

- Do I have time to take care of these personal duties?
- Can I afford to hire a housekeeper or landscaper?
- Can I have someone make prepared meals for my family?
- Can my children ride the bus or car pool with friends to get to and from school?
- Do I have time to volunteer at church?

Just remember to always think about the return on investment of your time, your money, and your energy (mental or physical)—because everything you say **yes** to or **no** to has some level of return AND know that you are really the only person who can measure ROI.
